

## Property Impacts – Your Rights

Our state and federal constitutions recognize private property rights and provide appropriate safeguards when property acquisition by public agencies becomes a possibility.

The state and federal constitutions and various statutes, including the California Eminent Domain Law and the state and federal Uniform Relocation Assistance and Real Property Acquisition Policies Act (as amended), authorize the purchase of private property for public use and outline how to protect the private property rights of every citizen.

The City of Anaheim is committed to working with each individual resident/property owner throughout this process.
